Wilcoxon Signed Ranks test.

KEEL non-parametric statistical module

December 15, 2011
Table 1: Ranks computed by the Wilcoxon test
Table 2: Summary of the Wilcoxon test. • = the method in the row improves the method in the column. ○ = the method in the row improves the method of the row. Upper diagonal of level significance α = 0.1. Lower diagonal level of significance α = 0.05.
